

People of the world fight back!:

- 1) Establish a perpetual family tradition of teaching your children how to garden, harvest the seeds, store and replant them the following year, immediately! Keep a wide variety for your family of a personal supply of vegetable, herb, grain and nut seeds. Even if you only have a tiny patch of dirt, compost it, farm it instead of planting only grass. Plant fruit and nut trees whenever and wherever possible and try to organize suburbs and communities to plant varieties to enable fair trade if there ever should be persons that try to control food and water supplies (like what is already in progress). Even apartment owners, try to purchase indoor gardening systems and become expert in growing and maintaining vegetable and herbs and variety of safely stored seed supply for you and your family. **DON'T EVER GIVE UP THESE PRACTICES OR KNOWLEDGE, BECAUSE IT IS A VERY REAL PLAN FOR EVIL PERSONS TO MANAGE WHO LIVES AND DIES ON THE PLANET BY CONTROLLING FOOD AND WATER SUPPLIES.**
- 2) Water! Everyone who can purchase precipitators that can be hooked up to stationary bicycle generators or that operate solely on sustainable power whether solar, hydro or wind. Make certain these precipitators are maintained to provide enough potable water from the air to keep you and your loved ones alive in the event of water rationing or droughts. If possible, home and land owners put in wells that can be manually accessed in the event even alternative power systems fail (either through manual pumps or even the old fashion bucket method but make sure you and your loved ones (if possible) are never dependent on anyone else to provide you with WATER! People near the sea, learn how to make inexpensive desalination units that function like the inland precipitators (providing enough potable water daily for you and your loved ones in the event of water rationing, wars, droughts or attempts to takeover and enslave you through controlling your water supply. These can be made simply by applying age old survival technology without even building a fire simply by taking sea water and allow evaporation and condensation as any survival manual instructs. I advise immediate construction of large scale desalination units this way with minimal automation and based more on the tides than mechanical or electrical power for nations that do not want to see people starve or dehydrate to death with the expanding arid regions. While they may be unsightly experimentation with wave crashing generators against existing cliffs should commence as another sustainable energy source. Expressways and highways should be fitted with these durable generators as cars drive over them in high traffic regions so there is less and less wasted energy and these generators can be utilized to pump fresh water inland along the expressways and highways from the large scale sustainable desalination units. WATER! Make sure individually you have a way to get your water regardless if the rivers run dry, or the wealthy horde it all for themselves. There are many methods to ensure this, implement all of them and teach your children to always know how to have these basic necessities for themselves –food and water!
- 3) The days of vengeance are at hand because children are being taught they came from monkeys instead of the truth – that all creation comes from God; as such people are becoming so greedy, selfish and vice filled that global unrest is at hand and massive suffering and bloodshed. If the cities explode into violence and governments implement martial law with depraved soldiers who rape, pillage and plunder; then you and your loved ones should know how to “live off the

land" I highly recommend wherever and whenever possible taking your family camping and hunting, fishing and foraging and learning how to recognize all forms of edible vegetation wherever it grows. I recommend learning how to make all water in wilderness settings safe to drink not only through modern methods but in the eventuality you are forced to live for extended periods of time in the wilderness. The final days are prophesied to be worse than ever before; so do not let yourself and your loved ones be exterminated in concentration camps and as far as I am concerned all people should arm themselves, train in self-defense methods and join together to make certain there is no power, not even military or police that can enslave or exterminate them. Only if you love FREEDOM and your LIVES will the USA or any nation be kept from falling into darkness, despair and destruction.

- 4) DEMAND THE IMMEDIATE CESSATION OF THE BRAINWAHSING OCCURRING IN OUR PUBLIC SCHOOLS! They are now teaching not only homosexuality but even pedophilia is normal, acceptable, and even encouraged to little innocent children as young as kindergartners and first graders!(Contact Breakthrough Ministries for the report on this subject) In addition, against all sane, rational and reasonable thought, the big bang theory and evolution continues to be taught as factual in the name of science when there is not one shred of scientific proof to date of either because it is pure fiction and EVIL fiction at that which brought about Nazi eugenic fascism and is causing likewise calamities everywhere it is still wrongly being forced upon innocent, young, malleable minds.
- 5) First and foremost, all peoples, nations, tongues and tribes return to the One True God as declared in the Holy Bible through our Lord and Savior Jesus Christ; for only then shall you live and be forever blessed. Then shall God give you Wisdom and Knowledge of how to properly steward this world so that the supply meets the needs of every soul He sends into this world. Only then will people care about others more than pieces of paper (money) as it is this day. Only then will the many forms of destruction and death coming upon you now, cease. Only then will the sun shine, the rain come and the earth yield her increase to sustain life. Until then sicknesses, diseases, and death in all its myriads of forms will be manifest until the few who remain will be only those humble souls that truly KNOW and LOVE GOD and His Instructions for Life contained in the Holy Bible. If you really and truly love your children, parents keep a Bible at the meal table and before, during, and after meals for your body, feed your spirits of everyone at least as often with the Words of Eternal Life, by reading the Holy Bible daily and constantly to each other!

If you do these things the Kingdom of God will become manifest on earth, but if you continue in thinking you all know better than the One True God or don't need the One True God, it is inevitable you will all kill yourselves off by bringing innumerable curses, destructions, sufferings and death upon yourselves in your willful ignorance.

So as ever Blessing and Cursing; Life and Death are set before you (Deuteronomy 28) Choose LIFE that you and your children may rejoice evermore! Give Thanks and Glory to God for it is due! Praise the Living Christ! YAHOSUAH AM MESCHIAH! (Commonly referred to as the LORD JESUS CHRIST in English) Amen and Amen. In His Love; Michael
